

Tatiana Foundation Young Investigator Award

The executive board of the **Spanish Society of Neuroscience (SENC)** is pleased to announce the **Tatiana Foundation Young Investigator Award**. This Award is intended to identify and support the future leaders of Spanish research in Neuroscience. By distinguishing excellent scientific track records after obtaining PhD (up to 8 years after PhD), the award expects to encourage young neuroscientists to continue their promising scientific career in Spain.

Award: The award winner will

1. receive an invitation to deliver a Plenary Lecture at the 20th SENC Meeting, Las Palmas de Gran Canaria, Spain, Sept 3-5, 2025 (<https://congresosenc.es/>)
2. receive a diploma
3. receive a 3000 € award
4. be invited to join the SENC Young Investigator Committee for the next two years.

Eligibility: Applicants must

1. be active SENC members when applying.
2. have obtained their PhD ≤ 8 years from the deadline of the application (one year extension for each parental or severe health leave - ≥ 3 months- would apply).
3. have continuously worked in a Spanish Institution at least during the last year.
4. present a communication at the SENC Biennial Meeting.

Submission: The proposals will be submitted to the Technical SENC Secretary (secretaria.tecnica@senc.es) including the following information:

1. Candidate's CV.
2. Recommendation letters from 2 ordinary SENC members.

Selection procedure: The SENC executive board, together with one member of the Scientific Council for Neuroscience of the Tatiana Foundation, will evaluate the candidatures and announce the Award by **June 30th, 2025**.

Deadline: The call **opens April 10th 2025 and closes June 10th 2025**.
